- Please print the certificate to share with your Nursing Agency.
- You may also View/Print your CE Certificate and self-submit to CE Broker for 3 contact hours.

Apex Innovations

NIH Stroke Scale Training and Certification

This 11-item neurological examination is used to quantify the effects of acute cerebral ischemia on levels of consciousness, vision, motor function (facial and extremities), cerebellar function, sensation, language, and extinction or inattention. NIHSS certification is valid for 1 year from test date for the initial patient group A, and 2 years for all other subsequent patient groups. **Select the Test button to pick your patient group.**
